Guess What? Columbus Ophthalmology is now on Facebook. We hope that you will “friend” our page and visit frequently. It was created so we may bring the latest eye care news to you. You don’t want to miss the newest breakthroughs in the diagnosis and treatment of eye disease. It has always been our mission to

preserve, enhance and improve the vision of our patients. By utilizing the latest techniques, technology, and equipment, our physicians offer state of the art ophthalmic care. Facebook offers us another means of communicating what services are available to preserve your precious gift of sight. We appreciate the opportunity to

serve your eye care needs.

Physician Focus

Dr. Richard Orlando founded COA in 1984 after completing his residency at Ohio State University. His contributions to ophthalmic surgery have earned him the reputation of being a technological leader and innova-

tor. His specialties include small incision cataract surgery and laser surgery. Cataract surgery offers several lens options, including the standard IOL, the Crystalens™, the ReStor™ and the Toric™. Dr. Orlando

will be happy to schedule an appointment to discuss your needs and lifestyle to determine which lens would work best for you. Please feel free to contact our office today to schedule an appointment.

Please excuse our mess during construction.

East Office Expanding

For our patients that visit our office on the campus of Mount Carmel East Hospital, you will notice some major changes in the months to come. We are currently in the design phase for an expansion and remodel. This is all happening to better serve our patients. There will be a full optical shop for the convenience of patients that do not currently have an optometrist for their contact and glasses

needs. Our clinic area is being enlarged so we can more easily accommodate two physicians in the office at the same time.

It is our goal to remain open during the construction so there is no interruption in our caring service to you, our patients. However, we do ask that you bear with us as we all know construction does not come without mess. Undoubtedly, each day will bring

new challenges and issues, but the final outcome will be well worth the effort.

Thank you for your continued support and we look forward to seeing you in the weeks to come. Feel free to stop in and check our progress.

Website Updates

If you have visited our website recently, you will have noticed some changes. We are in the process of updating many of the links and information available to our patients. New video links have been added for the premium cataract lenses available. For patients requiring directions to one of our locations, we have added a link to

Mapquest. Our Eye Conditions and Treatment section has been completely updated with all new information. Online bill payment is available for your convenience. Several forms are also now available for download so you may complete the forms prior to your appointment.

The website is still under construction and new areas will be

unveiled in the weeks to come. If you have any suggestions, we ask that you use the Contact Us link.

Sunglasses for Spring Break

Ed Hardy sunglasses available in The Optical Shoppe

Sunglasses are not just for style and looks, but play an important part in protecting your eyes from ultra-violet (UV) rays. With many of us heading south for spring break, be sure you have the eye protection you need.

Stop by The Optical Shoppe in our Dublin office to see the latest lines available. One of our skilled opticians will be more than happy to assist you in selecting the perfect frames to help you look your best on the beach.

The Optical Shoppe is open Monday through Friday from 8am—5:30pm.
